—No. 4.—

A RETURN, stating how and in what manner the NUMBER of SCHOLARS (107,042) mentioned in the REPORT of the COMMISSIONERS as in attendance at their SCHOOLS has been ascertained, whether by Inspection, or by any other and what check, whether this is the actual Attendance, or the Number on the School-rolls.

The number of Scholars mentioned by the Commissioners in their Report as in attendance at their Schools, was originally ascertained by the Replies in the Query Sheet to the following Questions:—

How many scholars are there usually in attendance - - - in	Summer - - - Males.	Females.
Is a register kept in the School recording the daily attendance of the children, and the average attendance of each week and each quarter - - -	Winter - - - Males.	Females.
How many children have been present on the average every week of the last quarter of a year - - -	Males.	Females.

The numbers thus ascertained were, with regard to the large proportion of the Schools, in making up the Report, corrected by the Reports of the Inspectors, who gave the numbers on the School-roll; but a direction had previously been issued by the Commissioners, that all children who may have been withdrawn from any School during the first or second half year, should be struck off the School-roll at the end of that half year. Thus, in the greater proportion of the Schools, the number of children reported by the Commissioners, was the number on the School-rolls, subject to the directions previously given to correct the School-rolls, so as to make them, as far as possible, correspond with the number in actual attendance.

By desire of the Commissioners of Education, *The P. Kelly, Secy.*

COPY of the CORRESPONDENCE of the COMMISSIONERS of EDUCATION with the SYNOD of Ulster, or Persons on behalf of that Body.

Sir,

Office of Education, August 27, 1833.

THE Commissioners of Education having had submitted to them by His Majesty's Government the four Propositions extracted from the Minutes of the General Synod of Ulster, assembled in June and July 1833, for their consideration, direct me to have the honour of informing you, that they are of opinion that these Propositions do not contain any thing inconsistent with the principles of the system of education committed to their charge; and his Excellency the Lord Lieutenant having expressed his approbation, they will receive applications from the Patrons of Schools in conformity with them, and grant aid upon having such queries as they shall deem necessary to put satisfactorily answered. The Commissioners farther direct me to have the honour of requesting you to communicate the subject-matter of this Letter to your brethren of the Synod, in whatever manner may appear to you to be most fitting and judicious.

I have the honour to be, sir,

Your obedient servant,

T. F. Kelly, Secretary.

To Rev. Mr. Fukey,
Moderator of the General Synod of Ulster.

Sir,

Lakeview, Newry, August 24, 1833.

I HAVE been instructed by the Committee appointed at the last meeting of the General Synod of Ulster, for corresponding with Government, to submit to the Board of Education the following Propositions:—

Resolved, 1st, That the ministers and people of this church, without the necessary concurrence of the ministers or members of any other church, shall enjoy the right of applying to the Board of Education for aid to Schools by a statement of the constitution and regulations of the schools, accompanied with an engagement to adhere to them. But in this proposition we recognise the right of the Board to consider the regulations, and decide accordingly.

2d, That it shall be the right of all parents to require of Patrons and Managers of Schools to set apart for reading the Holy Scriptures a convenient and sufficient portion of the stated school-hours, and to direct the master, or some other person whom the parents may appoint and provide, to superintend the reading.

3d, That all children whose parents and guardians so direct shall daily read the Holy Scriptures during the period appointed, but that no compulsion whatever be employed to induce others either to read or remain during the reading.

4th, That every use of school-rooms be vested in the local Patrons or Committees, subject, in case of abuse, to the cognizance of the Board.

I have also been instructed to send forward to your Board Earl Grey's reply to the above Propositions:—

"I have read with great attention the four Resolutions extracted from the Minutes of the General Synod of Ulster, assembled in June and July 1833, and am happy to say I see nothing in them which may not be agreed to as in perfect accordance with the general principles on which the new system of education is founded. I trust, therefore, that all objections being now removed, we may look forward to the full attainment of those benefits for which that system was introduced."

I have likewise been instructed to lay before you the following form of an application as the basis upon which the committee shall recommend the members of our church to apply for aid to Schools:—

"We, the undersigned, have been appointed a committee to conduct the affairs of a School, and the following are the principles by which it shall be regulated:—

"1st. The School shall be opened at nine o'clock each day in the week, and be continued all three.

"2d. During the first hour such children as are so directed by their parents shall repeat a portion of the Westminster Catechism, and on Saturdays they shall repeat all they have learned during the week.

"3d. Parents shall be requested to state, when their children enter school, what portion of the day they may consider sufficient for them to employ in reading the Scriptures, and such arrangements shall be made as shall secure them that privilege; but no compulsion whatever shall be employed to induce others to read, or to remain during the reading.

"I have the honour to be

"Your obedient servant,

"M. Finlay,

"To T. F. Kelly, Esq.

Moderator of the General Synod of Ulster."

[This Letter, although dated anterior to the preceding, was not received at the Office of Education till after the preceding one had been forwarded by post.]

Sir,

Office of Education, September 6, 1833.

I HAVE the honour to acknowledge the receipt upon the 27th ultimo of your Letter of the 24th August, in which, by the instruction of your corresponding Committee, you submit to the Board of Education the four Propositions extracted from the Minutes of the General Synod of Ulster assembled in June and July 1833, which were adopted relative to the Board, and also an extract from Earl Grey's reply in reference to these Propositions, dated 26th July, and in which you state that you are further instructed to lay before the Board the following form of application as the basis on which the Committee propose to recommend the members of your church to apply for aid for Schools:—

"1st. That the School shall be opened at nine o'clock on each day of the week, and continue until three.

"2d. During the first hour, such children as are directed by their parents shall repeat a portion of the Westminster Catechism, and on Saturdays they shall repeat all that they have learned during the week.

"3d. Parents shall be requested to state, when their children enter school, what portion of the day they may consider sufficient for them to employ in reading the Scriptures, and such arrangement shall be made as shall secure them that privilege; but no compulsion whatever shall be employed to induce others to read, or to remain during the reading."

The Commissioners, having had this Letter submitted to them, desire me to state that, having previously to the receipt of it made the Minute of the 26th of August, with reference to the four Propositions extracted from the Minute of the General Synod assembled in June and July 1833, and which Minute of the 26th of August I had the honour of transmitting to you on the 27th instant by the direction of the Commissioners, they now desire me to refer you to it, and to add, that all applications for aid which may be made to them by members of your church, founded upon the principles of these four Propositions of the General Synod, would, like all applications proceeding from other individuals, be dealt with by them separately, according to the circumstances of each.

I have the honour to be, sir,

Your obedient servant,

To Rev. M. Finlay,
Moderator of the General Synod of Ulster.

T. F. Kelly, Secretary.

Sir,

Belfast, November 8, 1833.

I AM instructed to transmit to you the following communication:—

The Committee appointed by the Synod to submit certain Propositions to His Majesty's Government, in reference to the subject of National Education, having obtained from Government an approval of modifications of that system contained in those Propositions, and also a similar approval from the Board of Education, upon certain queries being answered satisfactorily, and seeing in the printed query Sheet that there is no query which may not, in their opinion, be answered satisfactorily without departing from those Propositions, and considering that in consequence of such approval of our Propositions, we are bound solely by the constitution and regulations of our Schools as they may be set forth in our applications for aid, and not by the printed "Regulations and Directions" of the Board, in which there are several matters which appear to be incompatible with the spirit and meaning of

our Propositions, it is the opinion of this Committee, that the ministers and people of the General Synod of Ulster, if they see fit, may now make application for aid out of the funds for National Education, strictly adhering to the Propositions agreed upon by the Synod, and approved of by the Government and the Board.

I am your obedient servant,

To T. F. Kelly, Esq.

M. Finlay,

Moderator of the General Synod of Ulster.

Sir,

Office of Education, November 9, 1833.

I HAVE to acknowledge the receipt this day of your Letter of the 8th instant, transmitting the Resolution of the Committee appointed by the Synod, to submit certain Propositions to His Majesty's Government in reference to the subject of National Education, which I shall lay before the Commissioners upon their first day of meeting.

I have the honour to be, sir,

To Rev. M. Finlay,
Moderator of the General Synod of Ulster.

Your obedient servant,
T. F. Kelly, Secretary.

Sir,

Office of Education, November 26, 1833.

I HAD the honour of submitting to the consideration of the Commissioners of Education your Letter of the 8th instant, conveying to them a communication from the Committee appointed by the Synod with reference to the subject of National Education, and am in reply directed to remind you, that the Commissioners in their Letter to you of the 27th of August intimated their acquiescence in the Propositions of the Synod, because they saw in them nothing inconsistent with the principles of the system of Education committed to their charge. I am further directed to refer you to the formula on the query Sheet, which applicants for aid to Schools are required to sign; from which you will observe, that the queries being satisfactorily answered, the Commissioners hold such applicants bound only by those regulations for the management of Schools which are set forth in their own answers; but the Commissioners, adverting to those expressions of the communication in which the Committee states that there are several matters in the Rules and Regulations of the Board which appear to be incompatible with the spirit and meaning of their (the Synod's) Propositions, direct me to say, that their Rules and Regulations must furnish the standard by which they will judge of all applications made to them for Schools, and that by consequence, if the answers made to the queries in any application appear to them inconsistent with the spirit and meaning of these Rules and Regulations, and must be withheld.

I have the honour to be, sir,

To Rev. M. Finlay,
Moderator of the General Synod of Ulster.

Your obedient servant,
T. F. Kelly, Secretary.

Sir,

Lakeview, February 18, 1834.

THE Letter of the Board of Education has been submitted to the Committee of the General Synod of Ulster, and I have been instructed by them to return the following reply:—

When the Synod submitted their four Propositions, it will be obvious that they were intended as the sole basis on which they proposed to put Schools under the management of the Board; yet, while His Majesty's Government has fully and unreservedly complied with these Propositions, the Board has appended to them such conditions as not only to neutralise, but to destroy them.

The correctness of this statement will appear from the following contrast, to which the Committee beg the attentive consideration of the Board:—

1st. The Synod requires, in Proposition first, that their ministers and people should have the right of applying for aid, by a statement of the constitution and regulations of the Schools, accompanied with an engagement to adhere to them. In addition to this, the Board demands an answer to queries, thereby annexing a new condition, annulling the Synod's right of applying by a statement, &c. and rendering the Propositions perfectly nugatory.

2d. By Proposition second, the Synod claims and secures to parents the right of directing to read the Scriptures "during a convenient and sufficient portion of the stated school-hours."

In opposition to this conceded and secured right, the Board excludes the Scriptures during a fixed period, without any regard to the opinions of the parents.

3d. By securing to children the right of daily reading the Scriptures, during a convenient and sufficient portion of the stated school-hours, the Synod considered their people to be secured in the uninterrupted possession of the school-rooms during the whole week.

In opposition to this, the Board has by Section 3 introduced the novel, and, as it appears to the Committee, unwarrantable demand of dismissing the children during one day in the week, a principle which the Synod has openly repudiated, and with which it is impossible they could consistently comply.

4th. The Synod, by Proposition fourth, vest every right to the use of school-rooms in the Committee, and it is well known to some of the Board, that one of these uses has ordinarily been the occasional preaching of the Gospel on week-days and Sabbath evenings. It is also a fact, that many of our School-houses were erected expressly for the purpose of preaching stations.

But the Board in 6—3, forbids this accustomed use of our School-houses, and declares it a reason for withholding or withdrawing aid. To this new and unexpected condition, it is most certain that many of our ministers and people neither can nor will submit. In their four Propositions the Synod has recognised no use as set apart for religious instruction, as they cannot consistently with their principles concede to the Board any right to limit the time to be employed in that exercise; but the Board in 3—5 proposes to confine religious instruction to a particular period, a proposal that appears to the Committee in addition to the Synod's Propositions.

The Committee further beg leave to submit, that the Synod, in their four Propositions, has recognised no religious Education in the Schools beyond the reading of the Scriptures, consequently the expectation expressed in 4—4, that members of the Synod should communicate with any member of the Board respecting any books to be used in the religious instruction of children, is not only an addition to the Propositions, but in perfect contradiction to their Presbyterian principles and liberties.

In conclusion, the Committee of Synod, feeling that it is more than time that this correspondence should close, entreat most respectfully that the Board will be pleased to favour them with a categorical reply to the following queries:—

1st. Will the Propositions of the Synod be considered as the sole basis on which their ministers and people are to make application for aid to Schools, without any additional condition or modification whatever?

2d. Will the Board patronise a School, where the Committee, at the request of parents, with the approbation of the master and the convenience of the whole School, so direct, that Scripture reading and other School lessons may as hitherto be alternate?

3d. Will the Board recognise the express will of the parents of the children of the School as to the measure of time sufficient for Scripture reading?

4th. Will the Board continue every use of School-rooms exclusively, as hitherto, in the local Committee?

A plain and explicit answer to each of these queries will, it is hoped, enable the Committee of Synod to close this correspondence, and make a Report of their determination to the several Presbyteries.

I have the honour to be

Your obedient servant,

To T. F. Kelly, Esq.

M. Finlay,

Moderator of the General Synod of Ulster

P. S.—The rough copy of this document I only received yesterday.

Sir,

Office of Education, February 21, 1834.

I HAVE the honour of receiving your Letter of the 18th instant, and having laid it before the Commissioners of Education, they direct me in answer to refer you to the Minute of the 25th August last, which I transmitted to you on the 27th of that month, and to state that, as their views upon the matter of your Letter are fully expressed in it, they decline further correspondence on the subject. They further direct me to observe, that they must decide upon the applications of members of your body, as they do upon those of all others, according to the merits of each case, and the principles of the regulations under which they act.

I have the honour to be, sir,

Your most obedient servant,

To Rev. M. Finlay,
Moderator of the General Synod of Ulster.

T. F. Kelly, Secretary.

Office of Education,
July 9, 1835.

The' F. Kelly, Secy.
